

ENVIRONMENTAL POLICY

The Management and all who work at Loxleys Print Limited are committed to the protection of the environment and the prevention of pollution. The company makes three core policy commitments:

- Continual improvement
- Prevention of pollution
- Legal compliance

The company ensures that all its activities, products and services are carried out in conformance with the applicable legislation which relates to its environmental aspects.

The organisation seeks to minimise waste arising, promote recycling, reduce energy consumption, reduce harmful emissions and, where possible, to work with suppliers who themselves have sound environmental policies.

An essential feature of the environmental management system is a commitment to improving environmental performance. This is achieved by setting annual environmental improvement objectives and targets which are regularly monitored and reviewed. The objectives and targets are publicised throughout the organisation and all staff are committed to their achievement.

In order to ensure the achievement of the above commitments, the organisation has implemented an environmental management system which satisfies the requirements of BS EN ISO 14001:2015.

This policy and the obligations and responsibilities required by the environmental management system have been communicated to all persons working for or on behalf of the company. The policy is available to all interested parties via Loxleys website or on request.

Richard Bacon.
Managing Director.
